“There is nothing noble in being superior to your fellow man; true nobility is being superior to your former self.”
[Ernest Hemingway](#)

SUMMARY

I love learning and programing using nothing but the command line, tmux, vim and a bunch of plugins. I am passionate about the craft of software development.

Apart from that I also love going to the gym, jumping rope, listening to classical music and playing piano. I am also a classically trained pianist and have been playing the piano since I was 16 years old.

WORK EXPERIENCE

Unbabel

October 2019 - Present

Senior Software Engineer (Translation as a Service scale up)

Unbabel is a scale up SaaS company that handles translations in a global scale.

I am working for the community team enhancing and enriching the editors experience.

Front-end: Vue, Vuex, Vue Router,

Back-end: Python 2/3, Django, Flask, MongoDB

Dev Ops: GitLab Pipelines, kubernetes, AWS, Docker

Mash

January 2019 - October 2019

Senior Software Engineer (FinTech scale up)

Mash is a scale up fintech company based in Finland. I worked on the Portuguese office in partnership with Inscale.

I mainly did front end development with a little bit of devops (mostly simple terraform scripts and playing around in azure).

I also did a presentation on how docker works under the hood (namespaces et al.)

Front-end: React (with hooks), Redux (with hooks, Styled Components, Recompose, Rebass, Styled Components, Recompose,

Back-end: .net 4.5, .net 4.5 MVC, .net core,

Dev Ops: Azure, Azure Pipelines, Terraform, Kubernetes, Docker

BitSight

January 2018 - Present

Software Engineer (Security Ratings SaaS scale up)

Bitsight is a venture backed start-up company leader of the security ratings service.

I am a full stack software engineer currently working on the customer facing ratings portal.

Front-end: HTML5/CSS3 (SCSS). JS, ES6, React, Redux (w/ sagas), Babel, Webpack, npm/yarn, istanbul/mocha/chai/enzyme, jquery, lodash

Back-end: python 2.7, Django, Django rest-framework

Dev Ops: Jenkins, Chef, Kubernetes, Docker

- Thriving and fast paced engineering oriented environment with agile methodologies
- Maintenance and development of new features to customer facing portal

everis centers

February 2017 - Present

Software Engineer (Automotive Industry)

Partnership project with nTTData for BMW

Technologies: Java 7, Java EE 6, JAXB, JAX-RS, JAX-WS, EJB, MQ, Swing, JavaFX, Junit, Oracle SQL, Jenkins, Sonar, JIRA, SVN

- Maintenance and development for a complex Swing fat client app called Sales Assistant 3 that communicates with a Java EE application server. Integration with multiple interfaces (Web Services, message queues, etc.) to other BMW mission critical systems.

everis

January 2016 - Present

Full Stack Engineer (Public Sector)

Instituto de Gestão Financeira e Equipamentos da Justiça

Front-end: JQuery, Bootstrap

Back-end: .Net Framework 4.5 (Web Forms & MVC), EF, iTextSharp, WPF, WCF

- Full stack developer for a critical web application for the ministry of justice
- Maintenance and new developments of an existing .Net Web Forms application
- Development of a new web application (frontend & backend) from scratch using .Net MVC with Entity Framework (database first)

September 2013 – January 2016

Identity and Access Management Consultant (Banking)

Caixa Geral de Depósitos

Technologies: CA Identity Minder, Serena Dimensions & Business Manager, Cucumber, TestNG, MS SQL, LDAP, Perl

- Java developer for an IAM project for a bank
- Developed a complex task with CA services to significantly speed up user creation
- Designed and implemented an automatic testing suite using Selenium
- Extensive contact with the client's application lifecycle management methodologies and software
- Important role on a complex IAM software upgrade with major architectural changes

May 2013 – August 2013

Identity and Access Management Junior Consultant (Insurance)

Axa MedLA

Technologies: CA Identity Minder, CA Site Minder, Java, axis2, WSDL, XML, LDAP, JDBC

- Java Developer for an IAM regional project for an insurance company
- Direct contact and decision making influence with the client party of the project without direct supervision
- Integrated new applications using web services
